

RS90A1

ActiveSmart™ Fridge 900mm French Door Slide-in Panel Ready

Introducing the next generation in Fisher & Paykel refrigeration. With new flush-fit design and the ability to easily slide into existing kitchen spaces or be integrated behind kitchen cabinetry, these family-size refrigerators offer a seamless look to the kitchen while providing excellent food care with ActiveSmart™

Foodcare. Product supplied without exterior door facades. Stainless steel door panel set sold separately.

Integrated

Dimensions

Depth	606
Height	Ⓐ 1798mm
Width	Ⓑ 896mm

Features & Benefits

What is ActiveSmart™?

ActiveSmart™ consists of a microprocessor, interior temperature sensors, independently controlled variable speed fans and multiple air ducts. The microprocessor controls how the refrigerator operates based on changing patterns of use.

No More Gaps

The Slide-in series minimises gaps through heavy-duty inline hinges and adjustable doors enabling minimal 4mm gaps to create consistent lines throughout your kitchen. The series fits flush with cabinetry to minimise disruption and deliver design freedom through stainless or custom panel options.

Flexible Living

These fridges adapt to suit your lifestyle by streamlining food preparation and organisation with SmartTouch controls, flexible shelving and storage options, and slide out bins and trays. In Ice and Water models the water filter is easily accessible for quick replacement. Crisp LED lighting in all compartments lights up all the shelves, bins and trays.

Sized to Suit

The spacious 900mm French Door fridges are designed for family life, with double doors for easy access to uninterrupted fridge space.

Easy Cleaning

Removable, spill-safe cantilevered glass shelves are designed to contain drips and spills that can be simply wiped away, while leaving the interior walls completely smooth and easy to clean. Storage bins and EZKleen stainless steel doors just need a wipe to keep spotless.

Efficient

These ActiveSmart™ fridges intelligently adapt to daily use to help save energy, cooling and defrosting only when they need to without compromising on food care.
