## ActiveSmart™ Fridge 900mm French Door Slide-in with Ice & Water – Stainless Steel

Up until now truly integrated refrigeration was unattainable.

Complicated and extensive remodelling was needed for a fridge to be built into surrounding cabinetry to achieve seamless integration into the kitchen. This fridge is specially designed for simple slide-in installation. Product supplied without exterior door facades. Stainless steel door panel set sold separately. The water dispenser is only available if fitting the separate RD90U stainless steel door panel set

Integrated

Height	Ⓐ 1798mm
Width	Ⓑ 896mm

## Features & Benefits

### What is ActiveSmart™?

ActiveSmart™ consists of a microprocessor, interior temperature sensors, independently controlled variable speed fans and multiple air ducts. The microprocessor controls how the refrigerator operates based on changing patterns of use.

### Real Integration

Contemporary kitchens are living spaces. Part of the evolution is increasingly refined design, flush-fit cabinetry and appliances that enhance ergonomics as well as provide options to either showcase through crisp stainless steel\* or combine through custom panel finishes\*\*. Whatever your choice, the Slide-in series is designed to be seamless.

\* Product supplied without exterior door facades. \*\*Water dispenser only available if fitting the separate RD90U stainless steel door panel set.

### Sized to Suit

The spacious 900mm French Door fridges are designed for family life, with double doors for easy access to uninterrupted fridge space.

### Efficient

These ActiveSmart™ fridges intelligently adapt to daily use to help save energy, cooling and defrosting only when they need to without compromising on food care.

### Flexible Living

These fridges adapt to suit your lifestyle by streamlining food preparation and organisation with SmartTouch controls, flexible shelving and storage options, and slide out bins and trays. In Ice and Water models the water filter is easily accessible for quick replacement. Crisp LED lighting in all compartments lights up all the shelves, bins and trays.

### Easy Cleaning

Removable, spill-safe cantilevered glass shelves are designed to contain drips and spills that can be simply wiped away, while leaving the interior walls completely smooth and easy to clean. Storage bins and EZKleen stainless steel doors just need a wipe to keep spotless.

## Specifications

### Accessories
