## PROFESSIONAL FREESTANDING COOKER PROFESSIONAL FXP

At the heart of this range cooker's unique construction is the Energy Saving Panel (ESP). This removable panel allows you to switch from a full-size 108 litre oven that's great for entertaining en-masse, to a more modest 49 litre oven that uses less energy when cooking smaller dishes. When the panel is in place the spare cavity acts as a handy plate warming facility, using residual heat from the adjacent oven. The panel and shelves can be stored in the full-width drawer below when not in use.

## SPECIFICATIONS

---

### KEY PRODUCT FEATURES

- 'A' rated for energy efficiency.
- Multifunction oven offers seven settings: defrost, fan oven, fanned grilling, fan-assisted oven, conventional oven, browning element and base heat in both full oven and divided mode.
- Pyrolytic self-cleaning function.
- Large, single triple-glazed door for easy viewing and reduced kitchen temperatures.
- Single-piece hotplate with five burners, each fitted with FSD's (Flame Supervision Devices).
- Large Teppanyaki-style griddle with non-stick coating and graduated surface that drains fat away from food.
- Full-width and half-width shelves provided.
- Dual grill pan system offers safe grilling across full or half-oven width.
